Someș Water Company launches the 7th edition of the International Competition "The Water We Want"

Someș Water Company invites you to participate on the 7th edition of the "International Youth Prize Competition – The Water We Want."

The competition, organized by the Global Network of Water Museums (WAMU NET) with the support of UNESCO, aims to increase the visibility of educational activities organized by water museums and promote them worldwide. Students and young people are encouraged to use their creativity to propose responsible and visionary ways of using water.

Someș Water Company, through the Leonida Truța Water Museum, as co-initiator and founding member of WAMU-NET, has organized the national pre-selection since the first edition.

The 2026 national edition of the competition is once again open to children and young people aged 6-9, 10-12, 13-18, and 19-25 and will run from November 2025 to April 2026.

Someș Water Company will judge the national entries and select a maximum of 6 artistic creations to be sent to the Global Network of Water Museums for the final judging of all entries submitted by each WAMU-NET member water museum that has signed up to this initiative and will designate the final winners at international level.

The deadline for submitting all entries is April 24, 2026.

The competition kit containing the Call for Proposals and the Registration Form can be downloaded from the website of Compañia de Apă Someș S.A. – Social Responsibility Section – www.casomes.ro.
